

Declaration of Fish Marketing Organization

Subject : The intention to prevent and solve the problem of corruption

Fish Marketing Organization (FMO), the state enterprise under Ministry of Agriculture and Cooperatives, has been awared about corruption problem in Thai society and realized that this problem needs to be solved immediately not only to eliminate corruptions but also to increase self conciousness of our staffs against corruptions by participating in anti – corruptions measures in the organization.

These processes will result in more effectiveness of organization management by focusing on the corporate governance concepts through the principle of management with integrity , fairness , transparency and sincerity of all management processes in consistency with The National Anti – Corruption Strategy

Hence, The Fish Marketing Organization has announced intention and the commitment to prevent and solve all types of corruption. By defining guidelines and measures to prevent and combating against corruption. Also the rules will become the standard and guidelines for all units and personnel to follow and use as a guideline to work along with other regulations as follows.

1. Cultivating the moral values and attitudes public consciousness and prevent corruption.
2. Avoid neglect, ignore or tolerate with every corruption.
3. Work with faithfully, responsibility, above board and verifiable
4. The property of the organization shall not be used for personal benefit either directly or indirectly.
5. Encourage and support all the FMO's people to apply sufficiency economy philosophy to adapt in lifestyle and working. As well as applied as a tool to prevent and solve the problem of corruption.

Announced, as of February 14, 2017

(Assist. Prof. Manop Karnchanaburangkun)

The Director of Fish Marketing Organization
